CERTIFIED ONTOLOGICAL COACHING AND LEADERSHIP PROGRAM

OVERVIEW

The **Certified Ontological Coaching and Leadership Program (COCLP)** is one of the most in-depth and comprehensive coach training programs available in South Africa, Europe, the UK and the Asia Pacific region.

The ontological approach is an extraordinarily powerful methodology for effecting real change at the individual, team and organisational level. It is highly effective because it is based on a new practical understanding of the power of language, moods and conversations for behavioural and cultural change. As such, the program is highly relevant to the professional fields of coaching, organisational consulting, management and leadership.

Coaching and leadership is not something that is learned in a few months. Like any profession, it requires a curriculum that gradually builds key competences that are acquired through extensive experience and supervised practice. COCLP is an 18 month program that enables the development of full professional competence.

COCLP is designed for those seeking both personal and professional wisdom in their lives. Participants are able to integrate major advances in understanding the nature of human existence and co-existence into their personal and professional lives, as the necessary experiential basis for professional coaching. They are able to simultaneously experience significant personal, professional and leadership development, along with the development of substantive coaching competence.

The learning context is highly interactive and experiential. Full advantage is taken of the richness and depth of learning that occurs in interactions about real life experiences. This is supplemented by additional online conversations conversations and email exchange. Each participant is deeply respected as a learner who brings a diversity of skills and experiences to the course. Full support is provided to ensure that learning opportunities in the program are maximised and individuals can grow and apply their leadership and coaching skills immediately.

In Switzerland, the Certified Ontological Coaching and Leadership Program is offered in association with Neuroceptive Leadership.

INTRODUCING A UNIQUE AND POWERFUL APPROACH TO LEARNING, LEADING AND COACHING

In a world of increasing complexity and uncertainty, generated by what seems like relentless and accelerating change, coping effectively and living a meaningful life have become central issues in our everyday existence. Dealing with these issues requires learning and addressing a critical question: **“What learning is necessary to live and work well?”**

Ontological coaches and leaders are skilful facilitators of profound learning that generates genuine transformation and more powerful and constructive ways of engaging with different aspects of life and work.

Ontology focuses on our **Way of Being**, which is a dynamic interrelationship between three areas of human existence – **language, emotions and body**. Way of Being contains our often deep-seated perceptions and attitudes and is the underlying driver of our behaviour and communication. Ontological Coaching has a holistic orientation that respectfully generates learning in all three areas of language, emotions and body as the catalyst for substantive and sustainable change.

COCLP will assist coaches, leaders and business consultants to develop a uniquely powerful way of observing and working with organisations. An organisation is seen as a network of conversations, relationships and commitments. How well people converse, relate, and manage their commitments, has a major bearing on performance and productivity. Leadership and management effectiveness is fundamentally about conversations and relationships. Shifts in Way of Being, individually and collectively, underpin the enhancement of conversational and relational competence, and are central to improved work practices, cultural change and lasting organisational transformation.

HOW YOU WILL BENEFIT FROM THIS PROGRAM

The distinctions provided in the Certified Ontological Coaching and Leadership Program will enable you to become a more powerful observer of yourself and others. You will acquire a new set of distinctions and competences for working with individuals and teams. These will enable you to observe the continuous interrelationship between how people speak, listen and converse with each other, their moods and the language of their bodies. These new ways of observing will enable you to open up possibilities for others which, even though were there before them, they could not see.

On successful completion of the program, you will be able to:

- Coach to a high level of competence across a wide range of personal, professional and organisational issues, and at a deeper level than is available in other coaching programs
- Lead authentically with greater influence and impact
- Facilitate and consult with organisations in ways that result in improved productivity, collaboration and trust
- Greatly increase your ability and capacity for living wisely and taking effective action
- Develop more constructive and mutually fulfilling relationships in both your personal and professional life

As a graduate of the program, you will also be eligible to become part of an international network of ontological practitioners working as Executive Coaches and Organisational Consultants and experience the benefits of continual professional learning, support and business opportunities.

WHO WILL BENEFIT FROM ATTENDING THIS PROGRAM?

COCLP is highly applicable for:

- Existing and aspiring coaches
- Leaders and managers
- Organisational consultants
- Professionals operating in highly people-focused environments
- Individuals interested in substantive personal development

ICF ACCREDITATION

This program has been granted Accredited Coach Training Program (ACTP) status by the International Coach Federation (ICF). It consists of 200+ hours of coach specific training that meets the theoretical aspect of MCC level credential.

PROGRAM CONTENT

COCLP is conducted over three progressive levels. By fully engaging in the course, participants will embody key ontological distinctions to substantially enhance their own lives, and apply them with increased competence in coaching conversations.

LEVEL 1: THE LINGUISTIC BASIS OF ONTOLOGICAL COACHING

This level focuses on learning to utilise a new understanding of language in everyday interactions and coaching. Although the primary focus is on language and the application of specific linguistic tools, there is a continual integration with the domains of emotions and body.

At the end of Level 1 you will be able to:

- Understand the conceptual framework and principles of Ontological Coaching
- Apply a different and deeper approach to the role of listening in coaching and leading
- Understand how specific linguistic actions shape reality and how they are used effectively in coaching to shift behaviour in individuals, teams, and organisationally
- Ask powerful questions that shift the client's perspectives, and create new possibilities for living, working and learning
- Utilise powerful conversational strategies for dealing with change
- Apply the ethics of Ontological Coaching to generate deep trust and rapport in coaching conversations and as a leader

LEVEL 2: EMOTIONAL LEARNING AND ONTOLOGICAL COACHING

Humans are much more than rational beings. Equally important, if not more so, we are emotional beings. Neuroscience shows that emotional experiences have a powerful impact on human behaviour and communication. Being able to lead others and coach competently in the emotional sphere is an integral part of being an ontological coach. This requires participants to engage in emotional learning.

At the end of Level 2 you will be able to:

- Understand the pivotal role of moods and emotions for deep and sustainable change
- Recognise, work with and shift the ways moods and emotions impact on communication, behaviour and performance
- Observe and work with the interconnection between basic moods, body posture and language
- Provide people with strategies to manage their moods and emotions
- Ensure you are in the most appropriate emotional frame for coaching and your leadership role
- Understand the connection between emotions, energy and health, their link to coaching and for creating a culture that gets the best results

LEVEL 3: THE PROFESSIONAL PRACTICE OF ONTOLOGICAL COACHING

Level 3 is about consolidating and extending the distinctions and competences learned in the previous two levels. In addition, a deeper practical appreciation of the role of the body in Ontological Coaching is developed, along with the application of an ontological framework for working in organisations as a coach, leader or consultant.

At the end of Level 3 you will be able to:

- Coach effectively in all three areas of language, emotions and body
- Effectively apply the ontological framework to generate organisational improvement and cultural change
- Engage in effective self coaching to generate learning and change
- Build your identity as an ontological practitioner and be clear about post-course applications

In addition to participants coaching each other throughout the program, essential practical learning occurs in this level through coaching conversations with people outside the course and facilitating culture and leadership development workshops outside the course. Participants report on these experiences and their clients submit evaluation forms to course leaders/mentor coaches.

PROGRAM STRUCTURE

Full advantage is taken of the richness and depth of learning that occurs in face-to-face interactions. Participant learning and engagement in the 18-month program consists of the following:

- A total of 29 interactive and experiential workshop days with program leaders
- Participation in learning groups conducted on a fortnightly basis
- Individual assignment work
- Participation in at least 55 supervised coaching conversations throughout the program

A Mentor Coach will be available to provide ongoing support, which includes coaching.

An average of 6-8 hours per week is required to engage comprehensively in the course to maximise learning.

ASSESSMENT

There are five main areas of assessment required to complete the program:

- Attendance at all conferences
- Completion of structured assignments (23 in total)
- Learning group participation
- Development and delivery of two public workshops
- Competence in coaching interactions

Whilst participants are encouraged to keep up to date with assignments, it is recognised that commitments outside the program may not always make this possible. The flexible nature of the program means that a suitable time frame for assignment submission can be negotiated whilst ensuring continued progress towards coaching competence.

WHAT OUR GRADUATES SAY ABOUT THE PROGRAM

"This coaching and leadership course has been profound and transformative for me, personally and professionally. It is a challenging task to put into words something that has been so transformative. I am a much more powerful observer in so many aspects of my life. As a husband and father, I have become a more compassionate and loving man and I am far less angry and judgmental. As a family physician with 20 years of experience, I have learned how to listen to my patients in a profoundly new way, to help them accept what is, and to reach for what could be, more effectively than ever before. I am extremely grateful for the experience and the possibilities this course has opened up for me and very excited about the different future I am creating."

*Jim Theis, MD
New Orleans, USA*

"After all my years of training and being exposed to many top drawer leadership perspectives and frameworks, the likes of Scharmer, Wheatley, Senge, Kantor, Colin's, etc., I can honestly say that Ontology of the Human Observer as a body of wisdom is fundamental and is the foundation upon which the rest finds its depth, place, and value."

*Vicky Coates, Consultant and Coach
Cape Town, South Africa*

"This is undoubtedly the best investment I have ever made in my career and life generally. COCLP has supported me end-to-end through a massive transition in my life circumstances and way of being, and I am very grateful for the opportunity to have participated in such a profoundly meaningful program. It is extremely gratifying to see the positive impact that the ontological approach has had on my clients in the relatively short time that I have been applying it."

*Chyonne Kreltshheim, Executive Coach
Melbourne, Australia*

"The Ontological Coaching Program is one of the best and most intense programs I have done so far. It is valuable for every coach and trainer and provides helpful concepts, methods and techniques. Especially the concept of our way of being, which helped me to develop myself and my way of coaching. I can't imagine not working on all three levels (language, body and emotions) anymore. For people who are motivated and willing to study and to practice every week, this is the program I would recommend. It will change your life and it will help you to become more successful in whatever you want to achieve."

*Stefanie Thies, Executive Coach and Coach Trainer
Dusseldorf, Germany*

"My intention for engaging in the Ontological Coaching Program was to enhance my ability as an executive coach. My expectations have been far exceeded and the learning has proven to be applicable at a much broader level. As an executive coach and trainer it has provided me with insights into how I can work more effectively to assist clients in dealing with change. The program content has given me the depth of knowledge to feel both confident and comfortable in dealing with any level of coaching client or challenging situation."

*Oliver Love, Director and Executive Coach
CFT Asia, Hong Kong*
