## INTRODUCING A UNIQUELY POWERFUL APPROACH TO LEARNING AND COACHING

**Ontological Coaching** is an extraordinarily powerful methodology for generating real change at the individual, team and organisational level. It is highly effective because it is based on a new practical understanding of the power of language, moods and conversations for sustainable behavioural and cultural change.

**Ontological Coaching** focuses on our **Way of Being**, which is a dynamic interrelationship between three areas of human existence – **language, emotions and body**. Way of Being contains our often deep-seated perceptions and attitudes and is the underlying driver of our behaviour and communication. Ontological coaching has a holistic orientation that respectfully generates learning in all three areas of language, emotions and body as the catalyst for substantive and sustainable change.

## WORKSHOP CONTENT

The workshop is interactive and highly experiential and includes coaching practice.

### At the end of the workshop, you will be able to:

- Understand the conceptual framework and principles of Ontological Coaching
- Understand how specific linguistic actions shape reality and how they can be used effectively in coaching to shift behaviour
- Apply a different and deeper approach to the role of listening in coaching
- Understand the pivotal role of moods and emotions in coaching for deep and sustainable change
- Recognise, work with and shift the ways moods and emotions impact on communication, behaviour and performance
- Observe and work with the interconnection between basic moods, body posture and language

## WHO WILL BENEFIT FROM ATTENDING THIS WORKSHOP?

Ontological Coaching and Leadership in Action is highly applicable for:

- Existing and aspiring coaches
- Organisational consultants, leaders and managers
- Professionals operating in highly people-focused environments
